## CONCRETE FLOOR MAINTENANCE

### ANTIPOLVERE

Water-based acrylic protective agent for concrete floors.

### ARMOSIL

Silicone type disarming release agent.

### NEUTRAL ACID

Concentrated neutralizing solution to be used after an alkaline treatment.

### NEUTRAL BASE

Alkaline based liquid aimed to the neutralizing final wash after a strongly acidic cleaning of building surfaces.

### CONVO 101

Rust converter phosphate type, for metals, ferrous metals and alloys.

### PROTEX 100

Protective solvent-based liquid formulated to provide a prolonged and safe film protection on building materials.

### NO ICE PLUS

De-icer for low temperatures. Effective up to -40°C.

### PULICOTTO E

It is a buffered, particularly inhibited descaling acid detergent, realized for the cleaning and the maintenance of cotto floors.

### PULICOTTO I

Descaling cleaner studied to be used on internal cotto surfaces and cement residues.

### BETON REMOKAL C

Acid-based detergent for the remove of cement traces from stoneware, ceramic floors and facades.

### BETON REMOKAL HD

Acid-based strong detergent for the removal of cement traces from stoneware, ceramic floors and facades.

## MOULD AND ALGAE TREATMENT

### PROTEX MUFFA

Concentrated anti-mould solution.

### RIMOX MUFFA

Liquid detergent for the removal of moulds and algae.

### TF SPECTRUM

Broad-spectrum super-concentrated sanitizer for the restoration of walls and facades.

### AIR 19HN

Super-concentrated degreaser for removing organic and atmospheric dirt.

## BUILDING FACADE MAINTENANCE

### PROTEX IDRO S-K

Natural effect, colourless water-repellent, breathable protective agent for building surfaces.

### PULI-PIETRA BASE

Detergent aimed to the cleaning of stone made walls, limestone, marble, tuff, cement.

### PULI-PIETRA ACID

Protective acrylic water-based consolidator for concrete floors.

### BRIX

Strong detergent for cleaning tenacious dirty on concrete and stoneware floors.

### PROTEX OIL 130

Natural effect, colorless, hydro-oleophobic breathable protective agent for building surfaces.

### PULI BOND 2

Polish protective detergent for cleaning alucobond facade panels.

## GRAFFITI REMOVAL

### PROTEX GRAFFITI

Anti-graffiti, transparent, film-forming, water-based protective agent with natural satin sheen.

### RIMOX GRAF A

Water-based low odor gel, for the removal of writings and graffiti from surfaces such as stones and cement.

### RIMOX GRAF S

Solvent-based graffiti remover gel, used on building surfaces such as stones and cement.

### RIMOX LO

Low odor gel for removing plastic plasters.

### RIMOX PEN

Liquid stripper for graffiti, markers, crayons, paints.
