## CONCRETE FLOOR MAINTENANCE

### ANTIPOLVERE

Water-based acrylic protective agent for concrete floors.

### ARMOSIL

Silicone type disarming release agent.

### NEUTRAL ACID

Concentrated neutralizing solution to be used after an alkaline treatment.

### NO ICE PLUS

De-icer for low temperatures. Effective up to -40°C.

### BETON REMOKAL C

Acid-based detergent for the remove of cement traces from stoneware, ceramic floors

### PULICOTTO I

Descaling cleaner studied to be used on internal cotto surfaces and cement residues.

### CONVO 101

Rust converter phosphate type, for metals, ferrous metals and alloys. Suitable for treatments before painting metals.

### PROTEX 100

Rust converter phosphate type, for metals, ferrous metals and alloys. Suitable for treatments before painting metals.

## BUILDING FACADE MAINTENANCE

### PROTEX IDRO S-K

Natural effect, colourless waterrepellent, breathable protective agent for building surfaces and facades. Solvent based.

### PULI-PIETRA

Detergent gel aimed to the cleaning of stone made walls, limestone, marble, tuff, cement and for facades.

### PULI-PIETRA ACID

Protective acrylic water-based gel consolidator for concrete floors and for facades.

### BRIX AT

Strong detergent for cleaning tenacious dirty on concrete and stoneware floors. Remove forklift marks.

### PROTEX OIL 130

Natural effect, colorless, hydro-oleophobic breathable protective agent for building surfaces and floors. Water-based.

### PULI BOND 2

Polish protective detergent for cleaning alucobond facade panels.

### AIR 19HN

Super-concentrated degreaser for removing organic and atmospheric dirt.

### TIPO 495

Micronized polish for metal surfaces, paints and painted plastics. Suitable for removing light corrosion and oxidation, and to restore the shine of metallic and non-metallic parts. Solvent based

### CITROX

Descaling lemon scented detergent. based on citric acid. Useful for bathrooms, swimming pool, SPA and saunas (washbasins, showers, tiles, taps...). Suitable for ceramic, porcelain, stainless steel, aluminum and copper and its alloys. it works on external glasses in contact with saltiness.

### DECALC NP

Strong concentrate descaling detergent for residues of mineral origin, (limescale and saltiness). Suitable for ceramic, porcelain, stainless steel, aluminum and copper and its alloys. It does not contain phosphates or phosphorus derivatives.

### PULIPIETRA SOFT

Detergent cream for building surfaces, also usable without rinsing. Suitable on stone, limestone surfaces, marble or other natural building materials. Removes smog, atmospheric dirt, oil, greases, and bird dung.

## WAX TREATMENTS

### DECER PLUS

Concentrated detergent for wax removal and for removing the treatments for the vinyl floors (Primer).

### LONGMETAL

Is a concentrated metal self-polishing waxy emulsion suitable also for round stud rubber floor tiles.

### SUPRALI

Concentrated self-polishing Wash&Wax.

## MOULD AND ALGAE TREATMENT

### RIMOX MUFFA

Liquid detergent for the removal of moulds and algae.

## GRAFFITI REMOVAL

### PROTEX GRAFFITI

Anti-graffiti, transparent, filmforming, water-based protective agent with natural satin sheen.

### RIMOX GRAF A

Water-based low odor gel, for the removal of writings and graffiti from surfaces such as stones and cement.

### RIMOX GRAF S

Solvent-based graffiti remover gel, used on building surfaces such as stones and cement. Not suitable for plastics.

### RIMOX LO

Low odor gel for removing plastic plasters.

### RIMOX PEN

Liquid stripper for graffiti, markers, crayons, paints.
