CHEMICAL SOLVING

**CIDE 175**

## **SELF DRYING SURFACE CLEANER**

Fast evaporating liquid formulation for surface and equipment cleaning. Alcohol based detergent. No need to rinse.

It is used on surfaces and equipment where solid residuals have been removed previously.

It can be applied to stainless steel, aluminum alloys, copper alloys, nylon and plastic materials, tiled surfaces, concrete.

It should not be used in the presence of open flames or on hot surfaces.

It is employed in the food, HO.RE.CA., hospital and industrial sectors for surface and equipment (filling machines, ovens, slicers, ice-cream machines, etc.) cleaning.

It can also be used for seats with eco leather or synthetic fabric coverings; for the application on colored natural leather, we recommend testing on a small area prior to extended use.

### **INSTRUCTIONS FOR USE**

- It is used as received, at room temperature, with sprinklers or by spraying it on surfaces.
- Leave on the surface for at least 5 minutes.
- The product quickly evaporates, allowing the rapid use of the surface, and does not require rinsing.

### **PRECAUTIONS**

For safe handling information on this product, consult the Safety Data Sheet (SDS)
