Technical Data Sheet

CITROX **DESCALING SCENTED DETERGENT**

CITROX is green, scented, lightly acid liquid product. It is particularly indicated for bathrooms (washbasins, showers, tiles, taps...), but it can also be used on floors and in any case in every room where, besides the usual clean conditions, a pleasant residual scent is desired. CITROX does not eat into ceramic, porcelain, stainless steel, aluminum and copper and its alloys.

DIRECTIONS FOR USE

It is used pure for particularly consistent scaling; its action on scaling shows with light bubbling in the interested area.

It is used diluted from 5% to 10% for general cleaning. It is used diluted at 1% to clean floors.

Rinsing after use is recommended.

PRECAUTIONS

Please refer to the material safety data sheet.
