CLEAR

FAST EVAPORATING DETERGENT FOR CLEANING GLASS, WINDOW AND CRYSTAL SURFACES

It is a liquid alcohol-based detergent specifically formulated to clean glass and crystal surfaces, that can also be used on steel, stainless steel, painted and laminated surfaces etc.

It eliminates traces of grease, oil, atmospheric dirt, dust, light soot spots, etc.

DIRECTIONS FOR USE

- It must be used by spraying or with a wet pad, diluted in water meeting with needs and type of dirt.
- For cleaning window glasses Usually it is diluted from **6 - 10%**, preferably with distilled water.

Spray or spread on the surface that needs to be cleaned and wipe with a proper cloth instead of common sponges or paper tissues

PRECAUTIONS

Refer to the material safety data sheet
