DEGRIX PLUS

SCENTED CONCENTRATED CLEANER

It is a super-concentrated scented nonflammable degreaser, suitable for deep cleansing.

It is suitable for cleaning painted equipment and surfaces, metal, stainless steel and aluminum surfaces.

It is mostly used in environment such as restaurants, public facilities, hotels, schools, canteens, offices, shelters.

It is a low foam product.

It removes grease, oil residue and rubber marks.

It doesn't leave marks, spots or residues on the surfaces if well rinsed after use.

It is used diluted with water at 2-4%, minimizing issues during the disposal phase. It doesn't deteriorate plexiglas.

INSTRUCTIONS FOR USE

The concentration for use depends on dirt conditions, but it efficiently works at a concentration of 4% already.

For deep cleansing, use it at the concentration of at least 18%.

Apply the product on the surface by spraying it; wait between 5 and 15 minutes (brushing is allowed during this time window); rinse it with clear water.

PRECAUTIONS

Read the safety data sheet for further information.
