FLICK OVEN

CONCENTRATED DEGREASER FOR SELF-CLEANING OVENS

It is an alkaline concentrated degreaser designed for use with ovens with automatic cleaning systems. The use of this product allows the cleaning and hygiene of the interior of the oven when hot or cold at the same time prolonging its life.

Removes stubborn stains including burned grease in a single cycle.

Can be used with all the self-cleaning and convention ovens.

Avoid contact with aluminum.

INSTRUCTIONS FOR USE

- Put the product into the container of the integrated cleaning system
- Operate the washing system and follow the procedures and dilutions specified by the manufacturer of the oven.
- Always wear safety goggles and gloves when handling the product
- Ensure the hygiene plan for detailed operating information.

PRODUCT FOR PROFESSIONAL USE ONLY

STORAGE

Keep container tightly closed.

Store between 0 and 40°C.

PRECAUTIONS

Refer to the safety data sheets.
