ICECALC

DESCALER FOR ICE MACHINES

APPLICATIONS

Organic-based descaler for ice machines.

It eliminates the limescale residue has formed in the machine during ice production cycle and ensures the proper functioning of the mechanical parts and their hygiene.

Easy to use, it does not damage rubber seals and parts coming in contact with this product

DIRECTIONS FOR USE

Dissolve 100 g of powder per litre of water, if possible hot at a temperature of 40°C to increase the efficiency of its action.

Leave acting for at least 2 hours

Rinse thoroughly with clean water

WARNING AND INFORMATION

Store and keep out of children's reach; do not ingest; Keep the container well closed and in the original container and avoid eye contact; in case of eye contact, wash immediately with water; consult your doctor immediately and show them the container or label.
