LAVABEN

UNIVERSAL SCENTED DETERGENT FOR WASHING MACHINES

Super concentrated professional liquid detergent for washing machines formulated to remove all types of dirt in the laundry. Also used at low temperatures, this detergent has been designed to protect the fibers and facilitate ironing.

It is specifically suitable for washing natural fibers or synthetic textile at low (30°C) and medium (60°C) temperatures.

It effectively eliminates bad smell, so it is suitable for washing fabrics that have been in contact with pet/animals.

Particularly suitable for washing:

- Bedsheets
- Table cloths
- Curtains/blinds
- Towels

INSTRUCTIONS FOR USE

Use the product in dosage according to the washing program setted by the manufacturer of the washing machine. It is recommended a dosage of 10/13 gr/kg of dry laundry.

HOW TO STOCK THE PRODUCT

The product must be stocked in its own original packaging at a temperature between 5°C and 35°C, away from incompatible substances and in a vented room.

PRECAUTIONS

Read the safety data sheet for further information.
