CHEMICAL SOLVING

SGRASSY

LIME SCENTED CONCENTRATED DEGREASER

It is a weakly alkaline multipurpose concentrated liquid degreaser with a pleasant fresh scent of lime, suitable for cleaning stainless steel, metals and hard surfaces.

Particularly indicated in the food areas for daily and intensive cleaning of work surfaces, degreasing of oily residus, removal of thin layers of carbons.

DIRECTIONS FOR USE

It is diluted with cold or hot water (for dry and persistent solids it is preferable to use it mixed with water at 25-50° C) with sponges or paper towels.

- Use diluted at 3 - 10%

The recommended percentage refers to the consistency of the dirt to be removed.

PRECAUTIONS

Refer to the Safety Data Sheet.
