CHEMICAL SOLVING

SOFT

CONCENTRATED SOFTENER FOR WASHING MACHINES

Concentrated softener studied with highly biodegradable raw materials. It has antistatic and regenerating functions for the fibers. It releases a pleasant and persistent scent.

Particularly suitable for industrial and professional laundries.

INSTRUCTIONS FOR USE

Recommended dosages:

- 3gr/kg dry whites
- 5gr/kg for persistent fragrance

HOW TO STOCK THE PRODUCT

The product must be stocked in its own original packaging at a temperature between 5°C and 35°C, away from incompatible substances and in a vented room.

PRECAUTIONS

Read the safety data sheet for further information.
