VERI 21

HAND DISHWASHING DETERGENT CONCENTRATE

VERI 21 is a concentrated viscous detergent. It is formulated with a dedicated combination of ionic and nonionic surfactants to obtain a strong emulsifying action toward fats.

VERI 21 is neutral and does not contain alkaline substances or solvents therefore it is specific for food industry.

VERI 21 does not leave greasy surfaces and can be easily rinsed without leaving stains.

It is lemon scented.

VERI 21 it is very good for hand degreasing of dishes, cutlery, pottery, vessels, kitchen tops, equipments...

Satisfying results can be achieved also at very high dilution due to the product's high concentration
