

VETROLUX

CLEANING SPRAY FOR GLASS, CRYSTAL, MIRRORS AND SHINY AND TRANSPARENT SURFACES

VETROLUX is a detergent in a convenient spray container, specifically formulated to clean glass and crystal surfaces, but also suitable for stainless steel, chrome, lacquered, laminated surfaces, etc.

It eliminates traces of grease, oil, atmospheric dirt, dust, light soot stains.

VETROLUX, once sprayed on the surface, produces a white foam that clings onto vertical surfaces; dirt removal will be made easier by increasing the product's contact time with the dirt.

DIRECTIONS

Spray on the surface at a 20-30 cm distance, wipe and if necessary, polish with a soft cloth.

Flammable. Do not direct toward flames.

PRECAUTIONS

Please refer to the material safety data sheet.
